

All Music Schools Are NOT The Same

Here is a helpful checklist to use when comparing different programs

	Expressions School of Dance & Music	Other Dance Schools
University Trained Teaching Staff: Our private music instructors have a degree in music and many years of performance and teaching experience to share with your child.		
Private Lessons: Private lessons in voice and piano ensure that each child learns in the best manner suited to them.		
Group Classes: We also offer group musical theater and vocal performance classes for children who love to sing but are too young, or not quite ready, to start private lessons in voice.		
Preschool Music Classes: It's never too young for children to start enjoying and learning about music. Our parent participation classes are offered to parents and children as young as 1 years old. We also offer pre-school music classes for ages 3-4 years.		
Front Desk Assistance: Our school provides parents with front desk assistance during all class times so you can get help when you need it.		
Multiple Performance Opportunities: All students are invited to perform in our mid-year and year-end recitals. We also offer musical theater productions (twice per year), as well as local community performances as additional performance opportunities for music students.		
Spacious Lobby For Parents To Relax: Our spacious lobby includes plenty of space for parents to comfortably wait during their child's lesson.		
Save Time & Money: Families with multiple children enrolled in classes or music lessons can save money with our family discount. Parents can also save time by scheduling multiple children at the same time or with back-to-back dance and music lessons for one child.
